
MERCER OFFICES

Amex Building

MEETING SUMMARY

p/ MERCER: Daniel Nadborny and staff.

p/ CONTRACT: Esteban Errecart / Maria Fernanda Perez

Meeting location: Mercer offices

Meeting date: july 14, 2011

Notes about the last developed test fit:

Mercer does not agree about the following issues:

- big conference rooms: in their opinion it must be placed at the exterior of the plant, next to the exterior windows; (actual coffe area)
- small conference rooms (for 3 or 4 people): they need more of them;
- coffe area: they propose to place it at the other side of the plant, next to the server room.
- informal meeting areas: they'd like to have these spaces in a closed room with a straight acces from managers offices (eliminating corridors that separate these two rooms)
- phone booth: for two people, not for only one (to have the possibility of taking a conference call from there)
- manager offices: in their opinion they are too small

They talked about being in the new building on October the 1st.
